Selected Conditions / Conditions Choies (Continued/Suite)

the control of a pest.

The permit holder must inform the Canadian Food Inspection Agency (CFIA) of any pests and/or signs of living pests found on the imported material. Importer is responsible for containment and clean up costs of spills of infested material. Imported material infested/infected with regulated pests of concern to Canada must be destroyed at full expense of the importer.

Imported material is not for propagation or sale or distribution; for research and testing/analysis only.

Research to be conducted in a laboratory where quarantine isolation from local hosts is maintained.

All imported material must be destroyed upon completion of testing by autoclaving or heating the material to 150o C for a minimum of 6 hours.

The Importer must keep a log book of all imports and their status (c.g., grown, analysed, destroyed) and this log book must be made available to a CFIA inspector upon request.

Note: Import conditions in this permit pertain to the Plant Protection Act and Regulations only. It is the importer's responsibility to ensure that commodities covered by this permit also comply with the requirements of other acts and regulations.
